

Kia Dzaky Eriyoko

Back-End Developer

About me

My name is Kia Dzaky Eriyoko, I am fresh graduate. I am a freelancer web developer who is used to using CI 3, PHP, MySQL, JQuery, HTML, CSS. I now also learning python for data science, node js for web development. When I was in college I used to use SCRUM and work as a TEAM, even working on a dateline (pressure). division of time in lectures, organization, martial arts training is what I usually do, with the aim of time management I can do. The value of each semester remains above 3.5 despite having non-academic activities. From March 2020 until now I am a freelancer at CV. dafidea.
